

Basic Website Hosting

This is our entry level hosting plan. It is under R39 per month, hosted in our North American data centre and is directly connected to Multiple Tier 1 Connections, offering full redundancy. (and we are immune to Load Shedding)

If you want the same deal in our South African data centre just give us a call, and our sales staff will have you up and running in a flash.

You get:

- 200MB Disk Space
- Unmetered Bandwidth (No Caps)
- 500 Email Accounts
- Spam and Virus Protection
- 5 Subdomains
